President's Comments

This month we introduce the additional Veteran's Section for Tabled Plants, so please don't be too modest to participate in the Open Section. It was decided last month that this should be a trial for 3/4 months. Your actions will influence whether this will be permanent.

We have received payment from Rotary for our efforts over three days at Bunning's sausage sizzle - our funds for the T.Q.O.C. Inc. Conference have swelled to the tune of \$1,670.71 - not a bad effort - thanks again to those members who helped.

An attractive tender for the proposed hall extension has been received and accepted. Hopefully, by the time you read this, the contract will be executed. Details will be disclosed at the General meeting

Congratulations to Jeff and Alison and their helpers with the seedling flasks purchase.

Registrations for the T.Q.O.C. Inc. 2010 Conference are coming in steadily so please don't forget the Early Bird discount ceases after last day of this month. That's enough for one month - enjoy your orchids.

The World's smallest Orchid has been found in Ecuador.

The smallest species of orchid in the world has been discovered hidden among the roots of a larger plant in a nature reserve in Ecuador.

Lou Jost, an American botanist who works for the EcoMinga Plant Conservation Foundation, found the tiny orchid by accident when he was inspecting a plant collected from the Cerro Candelaria reserve in the eastern Andes.

The plant is just 2.1mm wide, and instantly supercedes the species *Platystele jungermannioides* as the world's smallest orchid. The petals are so thin that they are just one cell thick and transparent.

The flower is just one of 60 new orchids and 10 other plant species that Dr Jost has discovered in the past decade. "I found it among the roots of another small orchid which I took back to grow in my greenhouse to get it to flower," he said of his latest discovery. "A few months later I saw that down among the roots was a tiny little plant that I realised was more interesting than the bigger orchid".

The newfound orchid, part of the *Platystele* genus, hasn't yet been named.

## Club Members' Shop and TimTam Flask Order.

The *Easy Orchids* flask order has been placed. It was a super response in such a short time and we are ordering 51 flasks, which includes some for the new growing competitions. They should be here by 3<sup>rd</sup> March (thanks Barbara and Ziggy). If you have ordered full flasks you can pick them up from me as soon as they arrive. **The mass deflasking and sharing will occur at the hall at 1pm on Sunday 7<sup>th</sup> March.** TOS will "put the kettle on" and members are invited to bring something to eat for afternoon tea at the first deflasking session of the **TimTam Flask Group.** (Hint...hint)

I am still looking for **some kind soul** to pick up and bring back a *NuLeaf* order. (Anyone going to Cairns with a bit of spare room to bring back a few cartons?)

Quantity	Item
6 ✓	200mm Round Basket pot
12 ✓	220mm Square Heavy Pot

**Important.** If you recognise these hand-written orders, please contact me so that you can pay and collect your items as you forgot to write your name on the order form. If these are not claimed this month I will put the items up for general sale, so have a close look at the handwriting. Last chance.

Please bring in the "tightly sealable" jars for the **Calcium Nitrate fertiliser** (eg. Plastic fish oil capsule container, or other suitable ones). If you want your jar in particular back (when we put the Calcium Nitrate in it), then put your name on it. Bring in your extra ones as well as we need to put the fertiliser in air-tight jars once we open its bag – especially in this weather. Although I would be reluctant to open its bag in this high humidity, rainy weather. A nice dry, sunny day would be ideal. **The plan** is to bring in the jars to this month's meetings and the Calcium Nitrate will be available for payment and collection at next month's meetings. The anticipated cost will be about \$2.00 per kilogram.

Jeff.

**P.S. Remember to keep an eye out for a donation of a cupboard for the shop gear (that is if we need one?).**

## Novice/New Growers Report

On the 24th January, 54 members and visitors were welcomed to our first meeting for the year 2010, which was a good attendance considering the hot, humid and rainy weather that Townsville was experiencing on that day. Alan Hughes was our guest speaker for our first meeting this year and he gave a very detailed and knowledgeable talk on the *Cattleya Orchids* Genera. Thanks Alan for your time and help as it will be very beneficial to all our members in many ways to grow their orchids better.

As the mystery *Phalaenopsis* programme proved to be a success with our members last year, it was decided to purchase some more *Phalaenopsis* Flasks again this year. It will again be masterminded by Jeff and Alison and with his

magic tape, he will measure the growth of the leaf span of the *Phalaenopsis* seedling at our monthly meeting to compare how much it has grown for our members that month. This venture last year created a lot of interest for the members on growing these plants and which they were quite successful. Congratulations to all the members who brought along their orchid plants for the Popular Vote Sections with Ann Scholl 1st in the open division with Wal & Lyn Carlill 1st, Ann Roberts 2nd and Michael & Lyn Gudge 3rd in the Novices. Please remember to fungicide your plants during the wet - also watch for any bacterial rot. Our thoughts go out to all our members who are not enjoying the best of health at the present time and hope for better days ahead. **Many thanks to all our members who supported the afternoon tea table and also your generous donations for our Multi Raffle Table which is always greatly appreciated.**

Thanks again.

Warren

## Off to Singapore.

For all those members who are planning on coming with us to the World Orchid Conference in Singapore next year, and are **intending to spend** a little of your hard earned dollars while over there, here is some more interesting information on this subject.

Credit Card Security:

Have you notified your bank that you are travelling overseas? When travelling overseas we strongly advise you notify your bank or financial institution to establish the security of your credit/debit cards.

I always recommend that clients have access to two sources of income when travelling. One is a credit card and the other is access to cash through an ATM. These two cards should not be connected in any way so if the ATM chews up your card and this card needs to be cancelled for any reason, you still have the other card to operate on. Likewise, with the credit card. The Travelex visa debit card is one of the best to take as they give you two different cards with two separate pin numbers.

Clients should also check bank fees using cards overseas, so they are aware of these costs and compare these with the Travelex card.

Lastly, always arrive in Singapore with some Singapore dollars cash in your wallet. Never rely on getting the currency at the airport on arrival.

Traveller's cheques are almost phased out now as ATM's are so prevalent. Singapore is an extremely safe destination and ATM's are everywhere.

Hope this helps,

Jane

## A Treatment to Discourage Dendrobium Beetles

I have recently been told of a method of treating your outdoor orchids, so that the dreaded Dendrobium beetles will not trouble them. It entails brewing a cup of **Twinings Lapsang Souchong tea**, waiting for it to cool, and then spraying it on your orchids. (The tea bags are available from Coles supermarkets).

This tea has a distinct smoky flavour, produced by laying the leaves on bamboo trays and allowing smoke from pinewood to permeate through them. The beetles apparently dislike the smoky taste given to the orchids, and fly away!

I treated my outdoor *Vandas* and *Epidendrums* today, and I will watch to see the effects. I will report back later.

Noel Grant.

**General Business:** W Nicholson heard from Elders who have Seasol for \$189.65 - three times as strong as other places. Will also give samples for sachels. Kirwan Tavern won't be building motels until later in year. Over 40 registrations.

Monday morning best time for cleaning hall. Cleaners not available. Jean Nicholson and Frances Maltby to do cleaning each Monday morning for small fee.

Patron Mick Keith presented Registrar's Choice certificates from November meeting. A Withers would like to know the name of a Catasetum on display.

W Nicholson would like to thank the members who helped out at the sausage sizzle at Bunnings on three days after Christmas. He would also like to set up a list of members willing to help out if required in the future. Rotary has not advised us of money agreed. Following discussion will trial run for three months, from February meeting, a new category for tabled plants for 'veterans' to try to induce members to bring plants for the tables. If any member disputes names listed as veterans in Bulletin speak up. W Sewell queried Novice members being shunted up to Open Section after three years – doesn't think they have sufficient plants to compete.

**T.O.O.C. Inc. Conference:** Require shade-houses for bus trip. C Lee spoke of work done by W Nicholson.

**Editorial:** W Sewell checking up on paid up members to have correct list for bulletin delivery.

Extension to building – 2 quotes very high – plans given to three other builders – very promising. Hiring of hall very busy. If have to borrow should be able to handle it. Roster for show circulating. All shows and conference on Townsville calendar.

Committee Meeting to be held on 29.01.09 at Nicholson residence.

List for members who wish to open shade-houses at conference is circulating.

**Lucky Door and Raffles:** drawn following tea break. Congratulations to all winners.

ANOS Inc. will meet 2.02.10. Management Committee Meeting Friday 29 January at Nicholson's residence.

**Meeting Closed:** 9.15pm
