### [Paphiopedilum and Phragmipedium growing in Townsville.](#)

This information follows on from Ray Robinson's talk to the Novice / New Growers' Group meeting on Sunday 26<sup>th</sup> June, 2011.

#### **Just what are these orchids?**

*Paphiopedilum*: "This genus of about 100 species occurs in SE Asia and the Pacific Islands out to the Solomon Islands, lacks pseudobulbs, has fan shaped growths giving rise to a stiff and sometimes hairy inflorescence which can have 1 or many flowers opening either together or in stages.

.....The flower parts of *Paphiopedilum* are distinctly different than others with its pouch like lip hanging below the shield shaped "staminode" in

the centre of the flowers and on to the bizarre hairs, warts and bumps of the linear petals, and up to the cowl-like upper or dorsal sepal. They are also related to our terrestrial *Cypripediums* of North America, commonly known as lady's slippers. They are best grown in pots with a wood media, need moderate shade, good humidity and regular year round watering with good air circulation." (*Jay's Internet Orchid Species Photo Encyclopedia*)

*Phragmipedium*: "There are from 27 to 30 species in this new world terrestrial or epiphytic genus found from Mid-Central America south to Mid-South America, with several being discovered in just

the last 5 years. These tropical American species were removed from the *Paphiopedilum* in 1896 by Rolfe creating the genus *Phragmipedium*. They are sympodial plants with short stems, fibrous roots, with fan shaped groups of 6 to 8 coriaceous leaves that can become 3 feet long, that give rise to a central, erect, multi-flowered inflorescence with a free dorsal sepal, united lateral sepals that form into a synsepalum and the labellum is sac shaped or like a slipper. They like shady humid conditions with even water and fertilizer year round with plenty

of air circulation." (*Jay's Internet Orchid Species Photo Encyclopedia*)

## [Paphiopedilum and Phragmipedium growing in Townsville.](#)

(continued from page 1)

*Paph. Transvaal 'Gloria'*

### **Ray's advice on growing them in Townsville is:**

- Pots – use tall narrow pots that are as small as possible but just large enough to house all the roots. Place some coarse bark in the bottom of the pot and fill with potting mix.
- Potting mix –
  - 6 parts medium bark
  - 2 parts small bark
  - 2 parts vermiculite
  - 2 parts small coolite
  - 2 parts perlite
  - 2 parts coconut peat or milled sphagnum moss
- Repotting – Repot every two years and remove all dead roots at this time. In the off year, top-dress with about a teaspoon of dolomite.
- Watering – hand water (preferably) at least twice a week, and do not let them dry out.
- Fertiliser – Use a variety of low nitrogen fertilisers (inorganic or organic) at half strength every week. Add a wetting agent (e.g. Alginox or Phyan or a biodegradable washing up detergent e.g. Morning Fresh at a dessert spoon of detergent per 10L, to the fertiliser solution.)

*Jeff Knowles*

## [President's Comments](#)

I was somewhat surprised, to return from my Brisbane trip, to find that less than fifty members proposed to attend our July dinner. Looking on the bright side, it means less expense to the Society, as at ten dollars a head, we are subject to a hefty subsidy. All who attend can look forward to a good night out, a nice dinner and great raffle for little expense, where else can you get that these days? Management Committee has decided to add several bottles of wine, boxes of chocolates and purchased orchids to the raffle table. Apart from all that, we have a guest speaker who has spent many weeks, over a long period, studying orchids on Cape York.

Over a five week period Jean and I have only spent one weekend at home, so have been bursting a valve to catch up ready for the Winter Show. It seems that the unusual winter (yes we have had one) has spurred a few plants into flowering that usually wouldn't do so this early. Then of course it has put a few back. One visit away was to visit our daughter and family at Malanda, so we took the ute and brought back a tonne of quincan gravel, which is available at a reasonable price.

Talking of the show, you would all know that between shows, we hoard the empty cartons from Weight Watchers, for use with sale plants. These boxes are a problem to store unless flattened and stocked in the storeroom, and become an eyesore thrown in the corner of the "extension." I recently called for a volunteer to look after these. I am so heavily involved with other duties and need a break. If we do not get such a volunteer, who would probably be required for an hour a month, then the boxes will be dumped in future, causing inconvenience at shows. It's in your court!!! There are also a few other duties that could be eased away from our executive, so if you can or will help, please put up your hand.

Our Winter show will be over by the time you read this, so again, I must congratulate the winners, without knowing who they are, and thank the workers as well as the handful of organisers. I have no doubt that the show will have been successful, It never ceases to astound me the depth of interest, displayed by the people of this region, in our orchids, not only at shows, but by the day to day enquiries which we receive.

Nuff for now – have a good one – see you at the show (with my one bung eye) and at the dinner/meeting.

*Wal Nicholson*

## [Novice/New Growers' Report](#)

On the 26<sup>th</sup> June members of the novice new growers group gathered at the Townsville Orchid Society Inc. Hall Charles Street Kirwan. Among the 61 present were several visitors including two from a Victorian Orchid Club who enjoyed our afternoon activities? The main topic for the afternoon proceedings was on the growing of *Paphiopedilum* (paff-ee-oh-ed-ih-lum) the Lady's Slipper Orchid by Ray Robinson gave a very detailed account of on the habitat, temperature, light, humidity, water, fertilising and potting material which helps to create a good growing environment for them and which works best for his plants. Alan Hughes brought along three exceptional well grown *Paphiopedilum* flowering plants for Ray's talk with many questions and answers following on by the members about the genera. We are truly grateful to Ray and Alan for your help and for sharing your knowledge and expertise with us all on this subject.

By the time you receive your bulletin, our Winter Show will be almost over, but don't forget that we will be holding our Dinner Party at the Hall on the 22<sup>nd</sup> July, so

we hope you name is on the list. Great to see Arthur, Merle and Pat back again at our Sunday afternoons and all our members who are not enjoying the best of health, especially Doris, Tina and Mavis our wish for you that there are better day ahead.

The Popular Vote Competition is still running along quite steadily and in the Novice Section and the winners in the Novice Section was Peter Cooper 1<sup>st</sup>, Janeen Delisco 2<sup>nd</sup> with Evon Liang 3<sup>rd</sup>. Open Section 1<sup>st</sup> Place was Ann Scholl, 2<sup>nd</sup> was Lyn Mulch and Robert Rasmussen was 3<sup>rd</sup>. We would also like to thank all the other members who also brought along their plants for this Popular Vote Competition. At the present time there is a lot of interest in the last Phalaenopsis seedling competition as a couple of members have a flower spike on their plant. Great to see the Rhynchostylis (rink-oh-sty-lis) orchid coming into flower now, so we would like see some at this Winter Show. Once again we were treated to a wonderful afternoon tea and we would also like to thank you all for your donations of Afternoon Tea and Raffle Prizes for the Multi Raffle Table and supporting the raffle ticket sales.

## **Bulletin No4. June 2011**

Dear Orchid Aficionado

Momentum is beginning to pick up and plans for the best AOC Conference ever are coming together extremely well. **Registration for the 19th AOC Conference & Show is open** and the details are now available on line at..

<http://www.waorchids.iinet.net.au/Registration.pdf>

And don't forget that Earlybird Registrations must be received by 31st January 2012. If you are unable to download the registration form, please contact the Secretary at the address above with your postal details. We now have credit card facilities for your ease of payment.

Also attached to the Registration Form is information regarding the [Conference Tours](#).

The Conference Dinner will be held at the Western Australian Golf Club on Saturday 15th September 2012.

Arrangements have been made for transport to and from Burswood to the dinner venue should attendees wish to utilise this service, and please make sure that you indicate this on the form and pay the appropriate amount.

We have added another seven, to the eleven world class orchid speakers that were announced in our previous Bulletin, (see here... <http://www.waorchids.iinet.net.au/Speakers.htm> )

Phalaenopsis growers will be well catered for with the inclusion of

Dr. Graham McKay of [Gigi Orchids](#) in Queensland, and Mr Kuo-Liang Hung of Tying Shin Orchids, Taiwan.

Also .

Scott Barrie of [Barrita Orchids](#) - NSW

Mark Brundrett, Senior Lecturer in Plant Biology at the University of WA

Ray Clement of [Tinonee Orchids](#), NSW

Murray Shergold of [Easy Orchids](#) NSW

Rudolf Jenny of Switzerland. Secretary of the European Orchid Council and Research Associate of the Jany Renz Herbarium, University Basel, Switzerland.

And that's not all !! We expect to have a final line up of 21 lecturers and 27 lectures over a three day period. The lectures will take place, one at a time, in the Botanical Room, so that registrants will be able to hear and see ALL the lectures.

It is proposed to have a system in place for registrants to pre-order orchids and flasks from our guest speakers and vendors before the 19th AOC Conference so that these items can be picked up during the event.

If you are attending the 20th WOC in Singapore in November this year, you will find our promotion booth and display, which will be manned by members of the 19th AOC Conference Committee and other AOC members. Come and have a chat at booth B30 in the Marketplace.

Further information regarding all our latest happenings can be accessed on the 19th AOC Conference web site at [http://www.waorchids.iinet.net.au/19th\\_AOC\\_Conference.htm](http://www.waorchids.iinet.net.au/19th_AOC_Conference.htm)

Should you have any queries or questions regarding the 19th AOC Conference, feel free to contact the Chairman, [\(email\)](#) the Secretary, [\(email\)](#) or the Webmaster. [\(email\)](#)
