We all should have these.

John Nuss' very informative talk at the last Novice / New Growers' Meeting was on the native Australian orchids that are endemic to the Townsville region.

For the purpose of this talk John narrowed down this region to the 50km radius of Townsville approximately bounded by Rollingstone, Keelbottom Creek, Giru and Reid River. This area is "barely tropical" and ranges from coastal (lowland, slopes and upland), dry sclerophyll forest, mangroves, scrubs and high altitude rainforest ecosystems with moderate temperatures and rainfall that arrives mainly in summer. These are the conditions we need to appreciate if we are to grow some (or all?) of the 60 species that inhabit this area.

Some of the more common species are.

Dendrobium jonesii, *Dendrobium speciosum*, *Dendrobium teretifolium*, *Dendrobium tetragonum*, *Dendrobium bowmanii*, *Dendrobium canaliculatum*, *Dendrobium monophyllum*, *Dendrobium linguiforme*, *Sarcochilus ceciliae*, *Cymbidium madidum*, *Dendrobium lichenastrum*, *Dendrobium discolour*, *Dendrobium X Grimesii*, *Dendrobium X Ruppiosum*, and the terrestrial *Nervilias* and *Habenarias*.

Dendrobium teretifolium (or *calamiforme*)
Best specimen orchid at the Townsville Orchid Society's spring 2011 show, exhibited by John Nuss.

Novice/New Growers Report

On the 28th August, 55 members and visitors met at the Townsville Orchid Society Inc, Hall for our usual monthly meeting.

Our guest speaker for the afternoon was John Nuss, a well known Australian Native Orchid grower who gave a very detailed talk on native orchids that can be found growing in North Queensland. John estimate that he has found over 60 odd different orchid species growing in coastal and rainforest areas, wood land, rocky outcrops, creeks and gullies within a radius of 50 kilometres of the Townsville district. Somehow they will survive over the very dry periods and then when the rain comes they will all suddenly spring into life again. John

commented on several orchid plants that he had brought along to the meeting mainly *Dendrobium speciosum* often referred to as the Rock Lily or King Orchid which was cream in flower which grows right along the east coast of Australia and flowers in early spring and *Dendrobium canaliculatum* also known as the Tea-Tree Orchid which has onion type pseudobulbs topped with thick roundish leaves, has long sprays of twisted flowers which are very attractive, can be found growing on paper bark trees and flowers in spring. I have only made comment on two of the many plants that John brought along to the meeting for the members to see. We would like to thank John for his time and also his expert knowledge he passed on to our members on this subject and which was greatly appreciated by all who were present. Greg Kelly has offered to be the guest speaker for our next meeting on the growing of Equit Oncidium Orchids. We had 24 plants tabled by the members at our last meeting and what a wonderful display it was, especially the softcane dendrobiums. It must have been the winter we had this year for them to flower so well so we have to congratulate the members for this display. The Popular Vote Competition results were in the Novice section, Carl Osborne was 1st, Jan Allan 2nd with Peter Lucke 3rd. In the Open section Neita Coulson was 1st & 2nd with Caroline Swart and Wal & Lyn Carlill tied for 3rd placing.

The Christmas Party this year will be held in the Townsville Orchid Society Inc. Hall on Sunday the 27th November starting at 12.30pm. Members who have attended 4 or more Sunday meetings will not have to pay but all other members who have not attended 4 meetings, and that includes all the other members of the Orchid Society, their cost will be \$15.00. Non members wishing to attend will have to pay \$30.00. Our T.O.S Field Day is coming up on the 2nd October, so we will be needing lots of help on that day to run this event, plus donations of scones, sandwiches and cakes for the morning and afternoon teas for visitors from outer town clubs, plus items for the Multi Raffle Table on that day. The society will be hiring a bus to travel to the various shade houses on that day plus a lunch will also be provided for a total cost of \$10.00. So come along and meet and enjoy the company of fellow members from other clubs around North Queensland. Once again our thanks go out to all our members who helped with the afternoon tea refreshment and for your donations supporting the Multi Raffle Table. Many thanks again.

Also, many thanks to all the novice / new growers who worked at the Spring show and congratulations to Carl Osborne who exhibited both the Novice Grand Champion and Novice Reserve Champion orchids at the show.

P.S, Don't forget we do need items for the grocery buckets to be raffled at the Christmas Party, so any items donated will be greatly appreciated.

Clara and Warren Sewell.

President's Comments

In the lead-up publicity for our spring show, on the ABC Radio and in the local press, I mentioned that we anticipated that the display of Phalaenopsis would be the best and largest ever in North Queensland and perhaps in Australia. Well I don't know about Australia wide but it certainly did North Queensland proud thanks to many members, especially Stephen Fay. One of Steve's plants bore two branched spikes carrying seventy flowers with more buds yet to open.

It was fitting that Steve was awarded Grand Championship, with another of his Phallies. It was a great show held against the attraction of several other major local events – Congratulations to all of the workers and to the winners. Now we face up to our Field Day in just less than three weeks' time. Then just three weeks after that our A.G.M. Talking of the A.G.M., we need a few interested members to fill some vacancies on the committee. We have four or five – maybe six members – who have carried the society for a number of years, and their tasks seem to be increasing, even though many members often comment that they are doing too much. Going by Jeff's brief comment in last month's Bulletin it seems that we will require a new Editor (who does not need to be a committee member). Secretary Jean did this as an extra chore before Jeff gratefully took it on, but she cannot and should not be expected to do so again. She already, as Secretary, types much of the contents without taking on the lot. She types the Minutes, she types the List of Tabled Plants, she types the Tabled Plants Points, she types my Comments, all of which are very time consuming. Actually Jean and I find that our life is controlled by our T.O.S. Inc. duties, and we are not the only ones, so please put up your hand to take on a position, and ease the burden of our "leaders." For those of you who previously dodged the committee because of friction within, you should have noticed that this has dissipated considerably.

I mentioned the Field Day, which events are particularly helpful for the Novices to see how the "oldies" look after their plants, and also helpful for acquiring new plants at reasonable prices. The food is good, the bus trip is interesting and the raffles are phenomenal - \$100 Open Order at Bunnings is available, plus other good prizes – a cheap day at \$10 for bus and lunch - so please be at the hall at 8.30am on Sunday 2 October – see you there

Wal Nicholson.

Notes from the Treasury.

Congratulations to all the volunteers who helped with the running of our Spring Show.

More members entered plants in the show and more members participated in the sales area than any other show while I have been treasurer.

The display was superb and the sales area must have helped many growers off-set the expense of previous plant acquisitions. Total sales for the three days were very healthy.

I would like to thank all who offered their time to man the cash tills. Many shifts were correct to the cent and the 'unders or overs' of the other shifts was less than \$2.00 per shift.

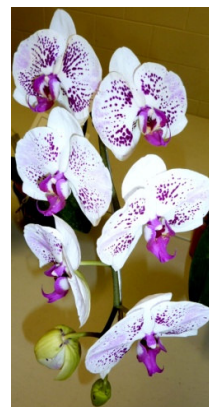

I would specially like to thank those members who volunteered for more than one shift and those members who stepped in at the last minute to fill a spot that was short on staffing.

These members still have cash to be collected. Member numbers 180, 80, 203, 82, 119, 148, 149, 164, Please chase me up next meeting because I am likely to forget someone.

Charles Lee
Treasurer

Registrar's Choice: Species: Phal. *amabilis* var. *Formosa* x *amabilis* var. *Formosa* earned 80 Points for R & J MacIntyre (J Nicholson photo).

Registrar's Choice: Hybrids: Dtps. Chain Xen 'Magpie' earned 80 Points for W & C Sewell. (J Nicholson photo).

This year's AGM will be held on the 28th October. The following information and forms may be of assistance to you as you plan your teams. Remember that completed nomination forms must be submitted "14 clear days" before the AGM.
