Meeting Opened: 3.35pm. Returning Officer John Nuss announced one nomination received for new President until next Annual General Meeting. Ted Boon Nominated by W Nicholson and Seconded by J Nicholson and announced election of T Boon who took the chair and thanked members saying that the Management Committee will help run the Society. He spoke on numbers attending General Meetings as he would not like to see Club closed down. Acknowledging W Sewell in charge of Novice Group he would like the Group Meeting start at 1pm sharp. Please vote on Popular Vote plants as a prize is available at end of year. Plants being judged must be in by 12.45pm to help judges of plants and popular vote to have time to do their job.

These comments to be printed in Bulletin.

Comments by W Nicholson re starting time and afternoon tea break being shortened. Suggestion to limit to 20 minutes. W Sewell commented on lack of help in kitchen as those members enjoy the day too. Also on late entries of plants being rejected as detrimental.

T Boon apologised to G Kelly for incorrect name in the Bulletin on his winning plant.

Minutes: of previous meeting Moved as a True Record by T Phillips. Seconded by G Kelly. Carried
Business Arising From Minutes: Results of Popular Vote were not in Bulletin but were forwarded to Editor.

Correspondence: Inward: Bundaberg OS/Receipt/Books; Morley's x 2/reminders' DMC/Air-Con; Websters Plumbing/Toilets; Campbell's Coaches/quotes 10 April/15 May; OQI Inc/Minutes; H&E Doyle/Resignation; D Bailey & L Armitage/Resignation; TQOC/Nomination Form/AGM; TCC Library/Query name of orchid;

C Lee/TQOC Conference web page/ details of Conference; Ayr OS/request to borrow items; J Sherry/request to purchase orchid; Other Society Bulletins; Hall Hire requests; Magazines: AOS, Orchids Australia, Orchid Research, 3 copies Orchadian. Australian Orchid Review.

Outward: TCC Library/name given to orchid; L Tindale/thank-you; R Rasmussen/hall Hire requests. J Nicholson Moved that Inward be Received and Outward Confirmed. Seconded by D Lincoln. Carried. Also stated further Correspondence: Burbank List; two bulletins

Business Arising From Correspondence: Nil.

Treasurer's Report: given by K Chambers who Moved Receipt of Report with Confirmation of Cheques written. Seconded by D Lincoln. Carried.
Business Arising From Treasurer's Report: Nil.

Novice/New Growers Report: Next two meetings will be a week early March on 20.03.2016 and April on 17.04.2016.

Water: Details of water restrictions from TCC to be placed in Bulletin. Hosing by hand will still be available.

Show: Two potting demonstrations will be held at our Autumn Show – 11am and 3pm. on Friday and Saturday with only one on Sunday at 11am R Rasmussen requested

to help with one on Phalaenopsis, and T Boon to do one on how to place orchids on slabs etc. and looking for volunteers for others to help out. Table of Library books will be available under strict supervision

Minutes: of Management Committee Meetings will be available on Notice Board at Sunday meetings.

Registrar's Choice: Hybrids: Rlc. Sung Ya Green gained 81 Points for P&J Lucke. **Species:** Den. *lasianthera* gained 79 Points for J Nuss. **Novice:** Den. Woon Leng gained 78 Points for A Hardy. Congratulations to all concerned.

Certificates: given out to Mark Sanim and Greg Kelly x 4.

Ayr TQOC Inc. Conference: Corrected some details about conference. Hoping our Society will run a day long bus trip to conference on the Saturday. Cost for Day \$40 and \$5 cost if only attending one lecture. Looking for someone to demonstrate and give general information on growing of plants. TOS should be able to use information in 2017. Suggestion to contact Day Dawn Nursery.

Past President: Fred Marnock would like to see recognition of Past President Wal Nicholson's work for Townsville Orchid Society Inc. over many years given in some form.

Field Day Bus Trips: Herbert River Orchid & Allied Plants Society Inc. (Ingham) on Sunday 10 April 2016 with bus leaving hall at 6.30am and returning at 6pm: W Sewell suggested \$15 plus \$10 for members and \$20 plus \$10 for non- members. W Nicholson Moved 'that we charge \$20 for members plus \$10 and \$25 plus \$10 for non-members.' Seconded T Ruxton. Carried. Contact Ayr OS and Hibiscus Club about seats available.

Bowen Orchid Society Inc. on Sunday 15 May 2016 with bus leaving at 5.30am and returning 6.30pm: We left for Bowen at 5.30am last year. W Sewell thinks it is too early.

Lucky Door: give out next month.

Meeting Closed: 4.15pm

President's Report

Firstly thank you for allowing me to represent a Society which has been a part of my life since I was 16, it is indeed an honour.

Secondly I got myself caught; I had planned to withdraw my nomination should there be a more capable person prepared to take the reins of this Society till the next annual general meeting.

It is important at this stage to advise it will be the Committee who will be making majority of the decisions in the way this club runs. If any member has an idea they think worthy which can or will benefit the club, please talk to me about it or one of the Committee members, failing that please write it down and give it to me at one of the monthly meetings.

The contentious issue of 2 meetings on the one day keeps raising its ugly head. It is my understanding that if we don't get enough members to attend the T O S monthly meeting, there is every possibility of the Society could be closed. I have no intention of seeing that happen. We are aware there are members who are not interested in attending the monthly meetings; I am not sure as to the reason why, that is their business

For some time now all the Society business has been discussed at the committee meetings and relevant details brought to the monthly meeting if discussion or approval is needed, this cuts the monthly meeting time almost in half, monthly meetings can now take 15 to 20 minutes, I don't think that is an unreasonable amount of extra time to spend. No one is or will be forced to stay or do any job they do not wish to or are capable of doing.

It would be nice if this issue could be resolved amicably. Warren is still and will always be the person in charge of the newcomers group for want of a better term. I would like to see this part of the afternoon start at 1 pm; I have heard a number of comments or complaints about the length of time before the afternoon starts. Perhaps this could also be resolved.

I consider myself an reasonably easy going person, however I am a stickler for certain things.. Popular vote being one, I am aware this has been changed from what it used to be, the way it is being run now has been improved, it is a simple system now where we have 4 sections all clearly marked, you vote for the plant you would like to take home and place your vote in one of the containers in front of that section.... It will be labelled POPULAR VOTE.

Please make sure your vote goes into the container for that section and not another. Remember there are prizes for this section at the end of the year.

I have noticed members wandering around looking at the display plants; this is a good time to do your popular vote.

Display plants... there is a rule that all plants being table have to be entered by 12.45. In future this will be strictly adhered to; any plant arriving after that time will not be included in the voting process or judging. We have judges who need to get their job done with minimal fuss to the meeting.

With a little help from various members the meetings or afternoons activities should run smoothly, I am hoping June will take care of the

popular vote with Peter and Marie looking after the judging results, with Peter looking after the points system.

I thank you for your time and trust the year ahead will be of benefit to all members.

Ted Boon President

Novice/New Growers Report: - At our last Novice/ New Growers meeting on the 28th February held in the Townsville Orchid Society Inc. Hall, Charles Street, Kirwan we welcomed 69 members and 3 visitors. As the weather in Townsville over the last few months has been very hot and humid, the right type of conditions for those certain types of pests that will attack our orchid plants during this time. Some of the pests that were discussed were the Mealy Bugs, Aphids, Thrips, Red Spider and White Fly, also the tell-tale signs and some of the remedies required to combat these nasty creatures before they cause too much havoc in your bush house. It is very important to monitor your plants regularly by checking under the leaves, flowers etc. and to practice prevention by having a clean and tidy orchid house.

Lyn Mulch spoke about her box of orchid plants brought along to the meeting for the members to see. Robert broke up a Phalaenopsis plant and replanted it in a mixture of jumbo perlite and small (Gravel) stone. The gravel is placed in the bottom of pot to help stabilise the pot and a cover of stone on top to prevent the discolouration (Algae) of the perlite on top. He also showed a photo of his Phally house where all the plants were neatly arranged all in a row on a sheet of slanted wire mesh. Finally Noel had a slide show on Brazilian species cattleya orchids with a commentary on their growing habits, area location and rainfall. We have to thank all our members who are always prepared to help out at our monthly meetings. We still need more people to go on the bus to Ingham on the 10th April for the Ingham Field Day so how about asking some of your friends who might like to go and enjoy a day's outing. We have to thank also all our members for the sandwiches and delicious cakes they brought along for the afternoon tea table and for generously supporting the afternoon Multi Raffle Table. **Please remember** that our next meeting is on the third Sunday (20th March) this month and not on Easter Sunday.

In Noel's Bush House 43

Dendrobium lasianthera, J. J. Sm. 1932

This is a large, robust epiphyte, perhaps the most spectacular species of the *Dendrobium* section *Spatulata* (also called *Ceratobium*), with pseudobulbs (canes) growing up to 3 metres long. Like *Dendrobium lasianthera*, most *Spatulata* *Dendrobiums* have twisted petals and a three-lobed lip. It is found on the north coast

of New Guinea on either side of the border between Iran Jaya and Papua New Guinea, along rivers and in swamp forests. It also grows along the May River, a tributary of the Sepik River, which gives rise to the names of two popular varieties – May River Red and Sepik Blue. Good luck if you want to see this orchid in its natural home, as the habitat is protected by crocodiles and leeches.

Dendrobium lasianthera, J. J. Sm. 1932

I was given this plant as part of a Townsville Orchid Society "Growing Competition" in October, 2010. (Is yours still growing?). Initially I was doubtful of my skill at growing it to flowering size, as I gave away most of my Dendrobium plants several years ago to make room for (you guessed it) more Vandaceous orchids, and my growing conditions, I thought, would not suit *Den. lasianthera*. Luckily, I was given some tips on growing it – I should hang the plant near the roof of my bush house for more light, not keep it on a bench, and like many Dendrobiums, it likes to have its roots crammed into a small pot.

The word Dendrobium comes from two Ancient Greek words, 'dendros' which means tree, and 'bios' life. The meaning of 'lasianthera' is 'having woolly pollinia'. I have looked closely at several flowers, but I have not seen that characteristic – perhaps I need a microscope.

This large plant needs lots of room in your bush house, as it can grow into a large clump. The climate of its New Guinea home is hot and extremely humid with year round rainfall. In seasonal floods, the roots of some plants have been seen to be covered by water for short periods without damage. It is best grown in a small pot with extremely well drained medium. It should be watered and given fertilizer throughout the year and grown in bright light. It will not grow without heat outside the tropics.

Noel Grant, March 2016

INSECTICIDE INFORMATION

Members who were at the February Meeting may recall Warren advised on an insecticide product available from Lamberts in Aitkenvale. I had reason to call there during the week, found the product which is list below.

You may also recall my mentioning another product from

Lamberts.Superway - DIMETHOATE 300 Systemic Insecticide, Price paid \$18.50

Bunnings – Yate Confidor Lawn & Garden Insecticide Price \$20 -\$22

Ted

Everyone has their own thoughts on such insecticides, however I have always used systemic Insecticides without any problems and they do get rid of the bugs.

FROM THE PRESIDENT

You have all hear the old sayings it never rains but it pours....and lightening never strikes in the same place twice... don't believe it.

I have just been advised that our treasurer Keith Chambers has returned all financial records; he has also been diagnosed with leukaemia and about to go into hospital. As a result I have spoken with Asst Treasurer Terry Ruxton, he is prepared to step up and act as Treasurer till the next elections in October

In the meantime we are now in need of someone to act as Asst Treasurer for this period, anyone who is willing to assist please make it known at the next general Meeting on the 20th. March, your assistance will be greatly appreciated.

Our thoughts and best wishes are with Keith and his family at this trying time.

Ted
