OPEN/NOVICE/SPECIES

Judges for June
 C TRUSCOTT A KNOWLES P LUCKE
 E BOON D BENSON M BLOOM

REGISTRARS CHOICE

Species - Dendrobium macrophyllum - W & J Nicholson, 80 Points

Hybrid - Oncidium Sweet Sugar 'Angel' F & D Marnock, 82 Points

Novice – Cattleya Rosella Cherry Ripe
R Whiting, 79 Points

Specimen - Brasavola nodosa
W & C Sewell

GENERAL MEETING HELD SUNDAY 21 MAY 2016

Meeting Opened: T Boon opened the meeting at 1.07pm.

Minutes Of Previous Meeting: Moved W Carlisle, Seconded A Zierk; Carried.

Treasurer's Report: T Ruxton read out the Treasurer's report.

General Business:

Resignation: J Nicholson resigned as Secretary TOS.

Ladies Night at Bunnings: Will take place on 26 May from 6 to 9pm.

Field Day at Charters Towers: Will take place in October this year.

TQOC Conference and TOS 70th Birthday: Will coincide in 2017.

Literary Competition on Orchids and Townsville: T Boon will take details to Committee Meeting.

Christmas in July: A list will be sent around for Christmas in July to be held on Sunday 24 July for lunch.

Bark and Charcoal: A pallet of bark and charcoal will be ordered.

Registrar's Choice:

Hybrid - Oncidium Sweet Sugar 'Angel' - F & D Marnock, 82 Points; **Novice** – Cattleya Rosella Cherry Ripe –R Whiting, 79 Points; **Species** - Dendrobium macrophyllum - W & J Nicholson, 80 Points; **Specimen** - Brasavola nodosa - W & C Sewell

P Lucke: gave a talk on what is happening this month

T Boon: gave a talk on the plants at the meeting.

Meeting was handed over to W Sewell for the Novice Meeting.

Meeting Closed: 1.20pm

FIELD DAY 9TH. OCTOBER.....

This event is only a few months away, that won't take long to go and it will suddenly be on us. We will be looking for bush houses to visit. If you decide to open your bush house so visitors can see how you grow your plants, now is the time to start and get your b/house into shape, clear leaves and rubbish away and generally tidy things up. If you would like to open your place, please advise and we will list your name. Depending on the situation I am considering opening my place for the 1st time in 30 odd years... anyone else like to join me? Let us know.

Presidents Report

Perhaps I should not be attempting this note tonight, some lousy mongrel has taken my dog from out the front of my place, have done all the usual things, walked the street (he never wanders), contacted the vets etc....

This time last week things were frantic for Charles Lee and his Ayr Society planners as they counted down to the 51st TQOC Inc Conference and Show, starting Friday night with a welcome to registrants.

Setup of plants began around 9.30am Friday and continued all day, once the computers were up and running, plants were able to be registered and numbers given to all plants (except for foliage). Plant registration continued Saturday morning till 8 am when the Judging commenced.

As there was a glitch with the computers I am not sure who won what, I believe Charlie Truscott won Grand Champion with a very large well grown and flowered Spathulata Dendrobium, the Reserve went to a B. nodosa cross Bc Yellow Bird, - magnificent! I stand corrected if this is wrong.

This show had the most Cattleyas I have seen at a TQOC Conference for a long time; some really nice specimens in some outstanding colours.

The Foliage was also well represented with Champion going to Jenny Jackson of Ingham. Champion fern went to Val Mitchell of Bowen. The show appeared to be lacking for blooms, however the turnout was quite remarkable.

I know a number of club members attended and availed themselves of the vast array of sale plants, those who did attend I am sure were suitably impressed.

Congratulation to Charles, Sharron and Vi along with their myriad of assistants for a job well done.

That now leads me into our forthcoming celebrations in 2017. Our society was formed in May 1947 and as a way of celebrating our 70th Anniversary, we plan to stage the 52nd TQOC Inc Conference and Show. Planning has commenced, the venue for this affair will be the Tony Ireland Basketball stadium. It is hoped we will be able to offer reasonable registration fees and reasonably priced sales tables.

To date I have already secured a donation for the Conference show, a request for a sales table and a possible international lecturer. Invitations and early advice have also gone out. Members have not been left out, as will become evident in the months or weeks ahead. We will need a great deal of assistance, please do not leave it to the willing few, but step up and offer to help. It will be appreciated.

Those who attended the recent Bowen field day had an enjoyable time, our bus left very early and arrived around 8-8.15 for morning tea and the usual raffles - from there to the various bush houses throughout the day, which all ended with afternoon tea and a massive raffle. The bus arrived back home just after 7pm. An enjoyable day- and plenty of plants filled the bus.

Nikki, I must apologise to you for failing to welcome to you into our club at last meeting, it was an oversight and I do apologise.

President Ted

CHRISTMAS IN JULY MEETING

Members please note. We need to know at our next meeting how many of you will be attending this event please?

The menu is along the same lines as we have had before... pork, chicken, and fish for mains
Sweets - assorted apple crumble, petite pavlovas and sticky date... plus fruit tray tea and coffee

Novice New Growers Report:- The monthly meeting of the Novice/New Growers was held at the Townsville Orchid Society Inc. Hall, Charles Street, Kirwan on the 22nd May with a good number of members and visitors in attendance.

The topic for the afternoon's meeting was on Thrips, a pest, which can cause a lot of damage to your orchid flowers and plants in your bush house and surroundings. This small insect which grows to about two millimetres in size is a very small sucking insect with small shrouded teeth which feeds on flowers and occasionally leaves, transmitting diseases from plant to plant by infecting the flower buds which may then not open and may be deformed. Also leaves may appear pitted, stippled, silvery and bleached. An invasion by these nasty creatures can become a big problem for orchid growers to remove. Good sanitation will help prevent infestation and growers need to be vigilant at all times.

We have to congratulate Adrian (our first junior member for a long time) benching his first two flowering orchids last month in the novice section for a first and second placing. Our second junior member Zack joined the society last meeting so we can now look forward to some interesting competition from these two young members in the future.

The Society Mid Winter Show is coming up on the 15th – 17th July so once again we will need as many flowering orchid plants as we can get for this occasion. We also need your generous help in filling positions on the roster. Don't just leave it to the same few members all the time. Our afternoon teas are getting bigger and better so we have to congratulate all the members for the delicious cakes and sandwiches they give for all of our members to enjoy. Your donations of gifts towards the Multi Raffle Table and for supporting the sale of Raffle Tickets were also greatly appreciated. Please support our Winter Show with your flowering plants and manpower.

BARK AND CHARCOAL.

Members, I hope you will recall discussions on this subject. A pallet of South Australian bark has been received and will be available at the June meeting

Charcoal has not been ordered, as we need to find out what members want as to size and bag numbers. If you would like charcoal and cannot make the meeting please ring me and advise your requirements

There are 2 sizes we could consider - 10mm & 15mm, personally I think the 5 mm too small and 20 mm just a little big, however it is up to members as to what they want. Ted

Brief Shop News.

The Townsville Orchid Society's members' shop has been restocked this month. Thanks to Steve, Delia and Tom, Carl and Wal we have ample supplies of perlite, fertiliser, pots and South Australian bark – all on a first come first served basis. Before the upcoming meeting members might have to raid the piggy bank and have a splurge. At this meeting we will organise an order for NZ bark and charcoal.

Megan and John from NuLeaf in Cairns have sent us samples of four carry trays. Everyone is invited to drop by the Club Members' shop to have a look.

Jeff.

In Noel's Bush House 46 June 2016

Myrmecatavola (Mcv.) Frances Fox 'Sun Spots' (Previously Recchara Frances Fox)

I tend to concentrate on species orchids when I write these articles, as I have a fondness for them, but when I wandered around my bush house this week, looking for an orchid to photograph and research, I discovered that all the species plants that were in flower had already been featured. So I chose this hybrid, not that it should be seen as second best!

Mcv. Frances Fox is a complex hybrid (*Myrmecophila tibicinis* x *Brassocattleya Polka Dot*), featuring in its ancestry *Mcp. tibicinis*, *Brassavola nodosa*, *Cattleya dowiana*, *C. warscewicii*, *C. mossiae*, *C. gaskelliana*, *Laelia tenebrosa*, and *L. cinnabarrina*. When it is shown at our monthly meetings, it is placed in the group with other *B. nodosa* hybrids, as the many-spotted lip contributed by *Brassavola nodosa* is common to all the group. Have a close look at the flower of *B. nodosa* and you will ask where the spots are – curiously, the plant only has a small number of small spots hidden deep in the throat, but they are a major feature in its entire hybrid offspring.

Mcp. tibicinis brings a tall, robust flower spike and the deep orange colour to the hybrid. This colour fades to yellow as the flowers age (another trait inherited from *B. nodosa*) and it can be disconcerting to see two quite differently coloured flowers on the same flower spike. *Myrmecophila* means 'loved by ants' as the pseudobulbs of this genus are often hollow, and are used as nests by ants. *Tibicinis* means trumpet- or flute- like, as its dried pseudobulbs can be fashioned into a simple trumpet. It is found in Eastern Mexico then south through Belize, Guatemala and Honduras in the lowlands and lower slopes up to 600m facing the Caribbean and Gulf of Mexico.

Mcp. tibicinis is known to sulk for several years after repotting, and, while I don't know if this trait has been inherited by the hybrid, it is recommended that you keep Mcv. Frances Fox in its pot for as long as possible. My plant is about to grow outside the pot, so a re-pot is due in about three years (Joke! Everyone knows my plants are never overgrown). My plant is grown among my other 'Cattleya family' orchids, so a similar growing regime seems to have it in robust growth.

I did see other plants of this hybrid for sale at the last Townsville Orchid Society Show, so keep your eyes peeled at our Winter Show, which will be held from Friday 15 July to Sunday 17 July. Be early!

Noel Grant, June 2016

| 1 st | Rlc[Blc] | Haad Yai Delight | A Hardy |
| 2 nd | Rlc Deception Garnet X | (Rlc [Pot] Miya's Passion x | Rlc[Blc] Burdekin Storm) |
| | | | B Fughera |
| 3 rd | C Gertrude Hausermann | | R & E Dundas |

At the last meeting it was pointed out a lot of the newer members may not be aware of the raffle and afternoon tea requirements.

To assist with the afternoon tea a plate of something would be appreciated, anything edible is greatly appreciated, can be hot/cold, savoury/sweet. Remember to collect your plate before you go home.

Raffles...Donations can take the form of many things, it does not have to be plants, as long as it is not common "rubbish" plants, if you have an overload of common plants, please bin them as most growers would have them. Items do not have to cost the earth

Donations besides plants /orchids, could include garden items on special... eg Brunnings all purpose fertilizer, garden gloves, pots etc, then there are the edible items eggs, fruits, cakes , jams etc

Remember: Bring something you would like to win! Please note the raffle money goes toward the Christmas Party at the end of the year.

NOTICE BOARD... everyone should be aware of the large notice board on the way to the respective loos. I have mentioned before if any member has something they wish to sell, please make use of the Notice Board and leave your message there, another member may be interested in what you have to offer.
